Khammam - 507 003.
Andhra Pradesh

Dt. 24-10-2002.

My Dear *Balakishan Rao,*

The Eye Bank Society of Khammam District is striving to provide sight to the blind through transplantation of the cornea. In this process, the cornea has to be enucleated within six hours of death of a person otherwise the cornea becomes unfit for transplantation. Normally, in Medico-legal cases where the Eye Bank enucleates the cornea with the consent of the relatives of the deceased, the Police should not have any problems, rather the matter should be decided by the Surgeons and the Eye Banks only once the consent is given by the relatives. Whenever the functionaries of the Eye Bank do contact, you too get information regarding the relatives of the deceased in any Medico-legal case. It should be provided to them immediately to facilitate contact with the relatives and consent from them for donation of cornea without loss of time.

With best wishes,

Yours sincerely,

(V.V. SRINIVASA RAO)

To
Sri P. Balakishan Rao,
Inspector of Police,
Kusumanchi.
